OLUWOLE GAIUS

Software Engineer | Frontend Developer | Machine Learning Engineer

Ibadan, Oyo State, Nigeria | +2349155652995 | oluwolegaiusayokunle@gmail.com

Portfolio: gaiuso33.github.io/Gaius-portfolio | GitHub: github.com/gaiuso33

PROFESSIONAL SUMMARY

Software engineer and frontend developer with about three years of experience across web development and machine learning. Statistics graduate completing a Computer Science degree at the University of Ibadan. Builds React, Next.js and Python applications and ML pipelines, and holds IBM and Microsoft professional certificates in DevOps, software engineering and Python development. Available immediately.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL, HTML, CSS

Web: React, Next.js, Node.js, Express, Flask, Tailwind CSS, REST APIs

Machine learning and data: Scikit-Learn, Pandas, XGBoost, Random Forest, computer vision, data analysis, statistics

Databases: Supabase, MongoDB, SQL

DevOps and tools: Git and GitHub, CI/CD, Docker, Linux, Postman, Agile and Scrum, Vercel, Netlify, Render

WORK EXPERIENCE

Software Engineering Intern
Aug 2026 to present

Crop2Cash | Ibadan, Nigeria

- Build and maintain responsive web applications with Next.js and Supabase.
- Developed API integrations that improved data retrieval times by 15% across key endpoints.
- Worked with a team of 4 developers to test code, debug issues and deploy features on schedule.
- Documented technical workflows and database schemas to speed up onboarding for new interns.

Machine Learning Engineer and Data Analyst
Jan 2024 to present

The Analyst Team | Ibadan, Nigeria

- Train and test machine learning models, including a fruit classifier and a resume screener.
- Build pipelines that generate data and train and test models such as XGBoost and Random Forest.
- Worked on computer vision projects that detect tumors in MRI scans.
- Worked on a fraud detection model using three models and two imbalance strategies to select the best for the project.

IT Support Intern
Jan 2025 to Apr 2025

University of Ibadan | Ibadan, Nigeria

- Provided IT support and troubleshooting to the university's staff and students.
- Worked hands-on with servers, routers and network switches, including on-site cable crimping and colour coding.
- Worked with network administrators and developers to resolve technical issues.

Junior Web Developer and Software Intern
Jan 2024 to Jun 2024

International Institute of Tropical Agriculture (IITA) | Ibadan, Nigeria

- Wrote Python scripts to automate workflows and scraped data from IITA-related sites.
- Worked on a resume-screening application and a fruit classification project using machine learning.
- Learned JavaScript and React, including components and how to build scalable websites.

SELECTED PROJECTS

Life Dashboard | *TypeScript, Supabase, CI/CD* Live demo · Code

- Personal dashboard that turns daily check-ins into visible progress across fitness, money and career, with an AI advisor and forecasts.

Student Analytics | *Python, JavaScript* Live demo · Code

- Dashboard for schools to track grades, GPA trends, course difficulty and students at risk, with role-based access for administrators and read-only viewers.

AI-Powered Resume Screener | *Python (Flask), PyPDF2, Chart.js* Live demo · Code

- Compares a resume PDF with a job description and returns a match score, missing skills and recommendations, with PDF export.

Automated Google Forms Generator | *Python, Scikit-Learn, NLP* Live demo · Code

- Converts written exams and quizzes into auto-graded Google Forms, saving hours of manual data entry.

GPA Calculator | *React, JavaScript, CSS* Live demo · Code

- Clean, responsive calculator that helps students track their academic performance.

EDUCATION

BSc Computer Science 2027
University of Ibadan, Nigeria

BSc Statistics 2026
University of Ibadan, Nigeria

CERTIFICATIONS

- IBM DevOps and Software Engineering Professional Certificate, IBM, 2026 (Docker, Kubernetes, CI/CD, microservices, application security, monitoring)
- Microsoft Python Development Professional Certificate, Microsoft, 2026 (automation, web development, advanced Python, project development)
- Also: Machine Learning with Python, Data Analysis with Python, Developing AI Applications with Python and Flask, Generative AI courses (IBM, 2026)
